## 3. DESCRIPTION

TEC Microbial Asphalt Walk-Off Cleaner (MAWC) is an advanced ready-to-use spot cleaner solution to remove asphalt walk-off contamination from all carpeted floor coverings. Ideally, MAWC is used prior to the carpet cleaning procedure to thoroughly remove asphalt residues throughout these traffic areas. MAWC provides superior resistance to re-soiling so walk-off floor mats stay clean longer.

### Key Features and Benefits

- Ready-to-use water-based formula
- Does not leave dirt-attracting residuals for superior resistance to re-soiling
- Solvent-free & no harmful fumes
- Fast-acting microbial technology

### Packaging

32 Oz. Spray Bottle 6/case

Product #10015755

### Coverage

50-75 ft<sup>2</sup>/bottle (5-7 m<sup>2</sup>)

### Storage

Close container tightly after each use. Store in original container only. Store in and use in temperatures between 40° and 120°F (4° and 49°C).

### Shelf Life

2 years in original unopened container.

### Limitations

- Do not use hot water with MAWC as hot water will kill the microbes.
- Do not mix MAWC with other cleaning products due to potential incompatibility with the microbes.

### Cautions

#### Do not use hot water.

Read complete cautionary information printed on product container prior to use. For medical emergency information, call 1-888-853-1758.

This Product Data Sheet has been prepared in good faith on the basis of information available at the time of publication. It is intended to provide users with information about and guidelines for the proper use and application of the covered TEC brand product(s) under normal environmental and working conditions. Because each project is different, H.B. Fuller Construction Products Inc. cannot be responsible for the consequences of variations in such conditions, or for unforeseen conditions.

## 4. TECHNICAL DATA

### Physical Properties

Description	
Composition	Proprietary water-based microbial solution
Color	Clear
pH	9-10
VOC Content	0 g/L
Application Temperature	Do not apply below 40°F (4.4°C)
Freeze/Thaw Stability	DO NOT FREEZE.
Storage	Close container tightly after each use. Store in original container only. Store in and use in temperatures between 40° and 120°F (4° and 49°C).
Shelf Life	2 years in original unopened container.

## 5. INSTALLATION INSTRUCTIONS

### Application

Before the application process of the MAWC, test fabric for colorfastness by applying in an inconspicuous area. Apply a small amount of MAWC to a clean, white cloth and gently blot the area. If no color transfers to the cloth or change in appearance of the fabric occurs, proceed with the following steps:

1. Remove all loose or dry soil contaminants and blot up wet stains with a clean absorbent colorfast cloth.
2. Pre-wet the stain with COOL tap water.
3. Spray the contaminated area with MAWC, agitate with a smooth edge non abrasive spotting spatula.
4. Wait 10-15 minutes, blot to remove the stain. If stain is not removed completely, repeat steps 3-4. If the MAWC is used as a pre-soak prior to using the TEC® Microbial Carpet Cleaner, simply extract all residual using during the MCC process.
5. Check cleaned area for dryness after 15-30 minutes and blot up remaining moisture with a absorbent cloth.

**NOTE: Do not use hot water.**

### Clean-up

Rinse equipment with clean cool tap water.

## 6. AVAILABILITY

TEC premium surface preparation, tile, stone, carpet, wood and resilient floor covering installation products are available nationwide. To locate TEC products in your area, please contact:

Phone: 800-832-9002
