RECOMMENDATION

H.B. Fuller Construction Products Inc has tested TEC® Super Flex™ Ultra-Premium Thin Set Mortar for the installation of Rustic Brick™ by Acoustic Ceiling Products LLC (ACP) in exterior environments. For interior and dry environments with no water exposure over drywall TEC® Type 1 Mastic can be used. These adhesives have been found to be acceptable for use with Rustic Brick when properly installed per industry standards, ACP written instructions, and TEC written instructions. Please reach out to your ACP representative for further information about the tile itself.

Discussion

Rustic Brick by ACP is a decorative brick product which has been tested with TEC Super Flex and found to have acceptable bond results. When installed over drywall it is possible to use a Type 1 Mastic, however it is critical to ensure your installation is over an absorptive substrate like drywall and has no water exposure. If there is expected water exposure, Super Flex would be the suggested bonding material.

It is critical to use the proper trowel and ensure the substrate has been properly prepared per Tile Council of North America and American National Standards Institute guidelines. Please review the most up-to-date version of the Product Data Sheet for the product selected before installation.

Questions?

Call the Technical Support Hotline at 1-800-832-9023.

This Technical Bulletin has been prepared in good faith based on information available at the time of publication. It is intended to provide users with information about and guidelines for the proper use and application of the covered TEC brand product(s) under normal environmental and working conditions. Because each project is different, H.B. Fuller Construction Products Inc. cannot be responsible for the consequences of variations in such conditions, or for unforeseen conditions. The owner or owner's representative is responsible for determining acceptability of the product prior to installation.

Limited Warranty

The H.B. Fuller product(s) covered by this Technical bulletin are sold subject to a Limited Warranty and related terms. H.B. Fuller Construction Products disclaims the implied warranties of merchantability and fitness for a particular purpose and all incidental and consequential damages arising out of the sale, purchase or use of this product.
